

MUSIC THEORY

Master Class

Spiritual Twist Productions Master Class
With **Jeremy Phillips**

*Do you want to write your own music but don't know where to start?
Do you wish you could sight-read sheet music or easily pick out harmonies?
Are you a human person who enjoys music?
Then Music Theory is right for you!*

Music Theory is a fun, interesting class where students are taken through a wide variety of concepts relating to Musicianship and Music Theory. Using a multitude of examples, everything from classical music to modern pop, we will explore the musical spectrum, learning why things sound the way they do, and using that knowledge to become better and more well-rounded musicians.

By the end of this class, students will be able to:

- Read music
- Analyze and reproduce complex harmonies and chords.
- Hear a melody and write it down using several different dictation methods
- Hear a song on the radio and be able to play along without looking up chords
- Transpose music on the fly
